TNN | May 26, 2018, 05.00 PM IST

Former Union Minister and journalist Arun Shourie was in the city on Friday to launch his new book called, 'Anita Gets Bail: What are our courts doing? What should we do about...!'. The event which was organised by Manthan, a forum for public discourse, also saw Mr Shourie speak about the state of Indian judiciary. He said that the quality of the Indian judiciary had gone down and it was evident from the judgement, which did not think through the consequences of it in future.
